## About me

Hello, I'm Bernard Pierrick, a front-end developer specializing in React. **Self-taught**, perseverance has allowed me to master a robust stack for web development, including **HTML, CSS, JavaScript, SASS, Tailwind, and React.**

With a deep understanding and **clean code** practices, I'm ready to unleash my full potential in your projects (**web applications, websites, SaaS**).  
Accustomed to working autonomously, I am also comfortable collaborating within a team.

## Experience

- 2024** Twitter clone (redux,react,css)
- 2023** Reproduction of the Swatch website
- 2022-2020** Identity Document Production Agent  
SELP, France
